I would say no provided we haven't heard anything from her office about that. I read the Exide paper and will have an edit for you – am checking with the team. I'll also make sure you get Allenco.

Subject: Question: Petition re Rancho LPG and Sen. Boxer's Office

Kathleen –

Do you think we should include the following in the materials I am compiling for the OECA hearing? Please let me know. Thanks.

Subject: Petition re Rancho LPG and Sen. Boxer's Office

Brent:

This is not an enforcement matter, but the transmittal email to EPA included a cc to Senator Boxer's office.

On May 11, 2016, a Petition came in to EPA concerning the Rancho LPG facility in Wilmington, CA.

The Petition is requesting that EPA reexamine the risks associated with the Plains/Rancho LPG facility and require Plains All American Pipeline resubmit the Clean Air Act Section 112(r) Risk Management Plan worst-case analysis for the facility. The Petition was submitted pursuant to the Administrative Procedures Act. An excerpt of the Petition is attached.

The petitioners are a San Pedro homeowners organization and the Tongva Ancestral Territorial Tribal Nation.

No determination has been made by EPA about what response is required to the Petition. I am

not aware of any follow up with EPA from Sen. Boxer's office regarding this matter.

We previously concluded a CAA Section 112(r) enforcement action against this facility.

Thank you,

Letitia D. Moore
